Kevin and Luis,
EPA has been conducting additional sampling this week and last week. I do not have any additional finalized data for you at this point. I also do not have an estimated date as to the completion of the RI, because it depends on the results of this sampling event.

Regarding your inquiry about additional PRP information submittals: are you asking if EPA would be interested in receiving information about the operations of noticed and non-noticed PRPs at this subsite? EPA would accept such information, but to date (to my knowledge) has not received anything from any of the noticed PRPs.

Subject: Lower Ley Creek

Lauren:

I am writing on behalf of Onondaga County seeking an update on the status of Lower Ley Creek, Old Ley Creek, the swale and flood plain RI investigation. The County understands sampling is on-going or only recently completed. Is the County's understanding correct? Regardless of the answer, does EPA expect to have an RI completed by the end of 2011 or is spring 2012 more likely?

I am also writing to inquire as to the date by which any additional PRP information submittals would need to be made to EPA so as to be of assistance in the on-going RI process. The County is actively investigating/inquiring if such information exists, but does not have any such information in its possession at this time.

Thank you.

Kevin C. Murphy
